

Respected Sir/Madam,

We wish to inform you that **'India Space Week' is being organized from August 12, 2026, to August 18, 2026.** The objective of this event is to keep the legacy of the eminent space scientist **Dr Vikram Sarabhai**—who established India's premier space science organization, the **Indian Space Research Organization (ISRO)**—alive in the hearts of the nation's youth and students.

As part of an ambitious initiative, India Space Week is launching a series of space science-related programs—**held annually from August 12 to 18, coinciding with Dr Vikram Sarabhai's birth anniversary**—as an active effort to immortalise his invaluable contributions to the field of space science in India and to share his work with the general public and students. In which along with the students, there will be participation from schools, colleges and the general public as well. In the programme organised earlier by India Space Week, around 1000,000 students from around 4055 schools, colleges, universities, institutions actively participated in various space education programmes throughout the week.

During this event, the latest information regarding space science will be imparted through educational sessions, with the support of **expert scientists from ISRO, NASA, and DRDO.** As part of this series, events such as space awareness sessions, workshops, CanSat and CubeSat competitions, a space fashion show/space-themed costume event, drawing and painting competitions, speech and discussion contests, essay writing competitions, space science exhibitions/technology showcase competitions, 'Azadi Ka Amrit Mahotsav' celebrations, ISRO Foundation Day, a space medicine innovation challenge, and interactions with scientists will be organized on various days throughout the week.

As the said program relates to space science and is being organized in memory of Dr. Vikram Sarabhai—the father of ISRO—we expect details of the event to be uploaded to the official website as well, so that it can reach the lakhs of students interested in space science.

Regards

INDIA SPACE WEEK 2026

विषय: अंतरिक्ष शिक्षा एवं अनुसंधान
Theme: Space Education and Research

12th-18th AUGUST 2026

Every year on the 12th to 18th of August, the birth anniversary of the Father of the Indian Space Programme, Dr. Vikram Sarabhai 12 August 1919 is celebrated as the India Space Week.

Join 6 exciting online workshops and expand your knowledge with experts from across the space and technology domain.

6 DAYS
6 WORKSHOPS

2 HOUR
EACH DAY

ONLINE
ON YouTube

E-CERTIFICATE
for all participants

LIMITED SEATS
First-Come,
First-Served Basis

12th AUGUST 2026

SATELLITES: THE EYES IN THE SKY

Explore the world of satellites, their types, orbits, applications and how they impact our daily lives.

13th AUGUST 2026

ARTIFICIAL INTELLIGENCE

Discover how artificial intelligence works, boost your skills, and shape the future starting today.

14th AUGUST 2026

ROCKETS: LAUNCHING THE FUTURE

Understand the science behind rockets, their components, types and their role in space exploration.

16th AUGUST 2026

ADVANCED DRONE TECHNOLOGY

Discover the latest advancements in drone technology and their applications in real-world scenarios.

17th AUGUST 2026

ROBOTICS: AUTOMATE THE FUTURE

Explore the fundamentals of robotics, sensors, automation and how robots are shaping our future.

18th AUGUST 2026

ASTRONOMY: EXPLORING THE UNIVERSE

Take a journey through the stars and galaxies and understand the wonders of the universe.
